

THE 'CHELTENHAM'
FOUR BERTH

ELAND

BODY

Length 17ft 7in. Width (at widest point) 7ft 2in. Height 8ft 3in. Weight ex-works 24 cwt. Weight (unladen) 21 cwt. Interior height 6ft 7½in at the centre.

Compound-curved bay-window front, curved sides. The exceptionally wide lantern roof with three adjustable roof lights each side, giving exceptional headroom, is panelled outside in aluminium and insulation board, inside with painted hardboard. Main walls panelled outside with Masonite and inside with oak-faced plywood. Cavities throughout walls and roof of this model are packed with fibreglass to give triple insulation.

The tongued and grooved floor has an extra insulation material on top, with lino and a runner carpet surmounting it.

Chromium plated water pipes at the four corners, carrying water from the roof, together with large hub caps, grab-rails, louvres and contrasting valances give the exterior distinction.

Outside panelling in aluminium is an alternative at £20 extra.

EQUIPMENT

The cream-painted toilet-room, which can be entered from outside or inside, is fitted with an Elsan chemical cabinet and is ventilated.

All mattresses are Dunlopillo, fitted with loose covers to match the back rests, curtains and cushions.

The end-kitchen is finished off with plastic materials to blend with the rest of the van.

There is diffused lighting from two electric roof lights and three gas lights.

In addition to the portable heater a point is provided for a gas fire.

Side lights, rear light and number plate are fitted, also cups, saucers, plates, water carriers, saucepans, frying pan, etc.

A folding step is fitted by the main door.

INTERIOR

In the centre of the van there is a double bed dinette with detachable table, and opposite a sideboard with cocktail cabinet, drawers, lockers and a stool. Overhead are four large roof lockers, two of which are fitted with leaded lights. There is a wardrobe on either side of the van and their doors combine to divide the centre from the front end. On one of these doors is a three-quarter length mirror.

In front, on the offside, is a single bed. On the nearside another single bed with bookshelf above, and, in between, under the triple light bay window, are shelves and a chest of drawers with long roof locker above. Another large detachable table is fixed to the chest.

Oak pelmets complete the decorative finish to the interior.

The end kitchen is tastefully finished in cream and fitted with plastic or stainless steel combined sink and drainer, chrome plated tap-type pump, set in an aluminium surround. Over the washbowl is a large window, and on the right a detachable rubbish tray and a fitted china cabinet. Under the bowl are trays for cutlery, bread and cakes and a fitted ventilated food storage space.

There is a full-length metal-lined compartment fitted with full gas cooker, ventilated airing cupboard above, and stowage for pots and pans beneath.

On the left is a separate chemical closet and a second entrance door. The kitchen is divided off by swing doors fitted with leaded lights.

- A**—Two single beds (nearside single bed "A" pulls out to position A, B when required full length. **B**—Extending bed arm.
C—Front shelves. **D**—Chest of drawers.
