

the stylish ORIBI

The latest 4-berth model in the Cheltenham range of touring caravans, the Oribi is an ideal family caravan with good unimpeded floor space and above average working surfaces and cupboard accommodation. At the front there is a dinette bed (6ft 2½in x 4ft wide) consisting of 5in. foam mattresses on perforated bases. A new design bunk provides a backrest to the single bed during the day. It is strong and durable, easy to make up and forms a comfortable bed at night.

The end kitchen is spacious and practical with crockery storage locker running the full length of the kitchen. The separate cupboard under the near rear side window is capable of taking a refrigerator if required. A foot pump is fitted to the wash basin to draw water from a portable container which can be situated inside or outside as desired, a feature of all models. Fitted handy to the wash-bowl is a rubbish disposal unit.

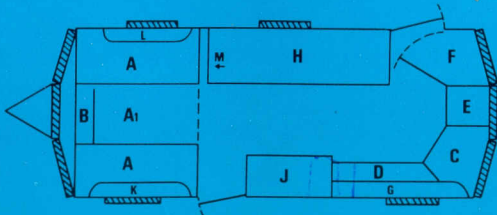

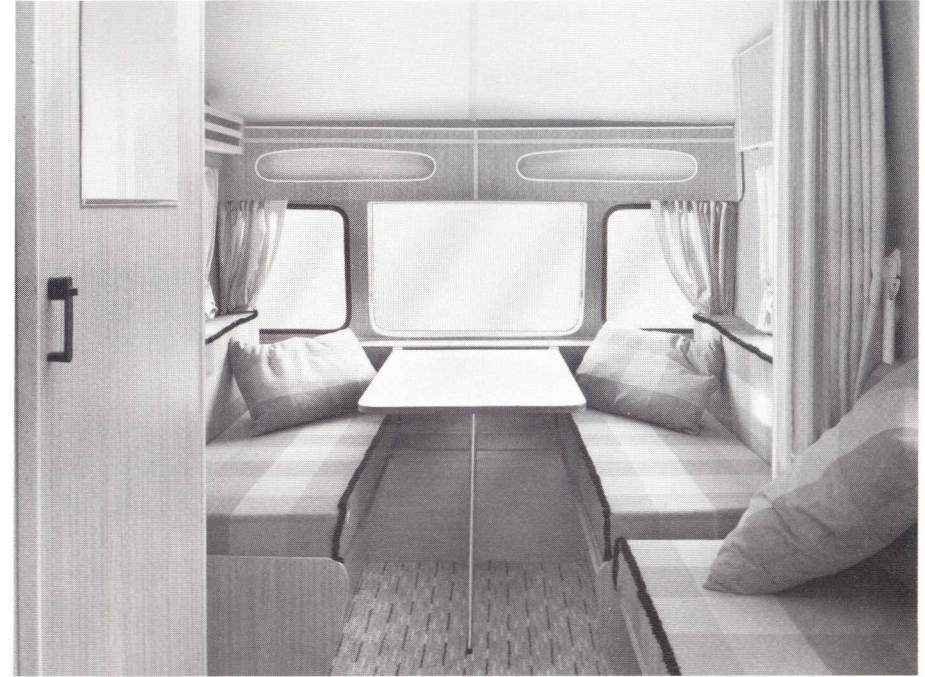

The Oribi can be divided either by a fitted curtain across the centre, or the track can be put around the single beds so that when children are asleep all facilities of the van are just as available at night as in the day time.

The standard model includes gas lighting and two 8 watt fluorescent lights; gas griller with hot plates.

Generous bay windows are provided at both ends enhancing the general appearance and providing good day light with an air of spaciousness.
