

the world-famous SABLE

13' 4" (406 cm) long, 6' 6" (198 cm) wide and 6' 3" (191 cm) headroom. Supreme comfort for two, elegant appearance with bay window at rear as well as front, plenty of space and maximum mobility: the Sable is firmly established as the answer to all these requirements.

The layout is shown on the floor plan and key, demonstrating clearly

- A wealth of working surfaces and storage cupboards. Kitchen end has been designed to take advantage of extra space provided by bay window. Provision is now made for fitting a refrigerator. Two chests of drawers, ventilated cupboard for food, three other lockers for stowage. Detachable rubbish bin. Compartment behind will hold either one water carrier and one cylinder, or two carriers or two cylinders. The flexible lead from the foot pump is led into this compartment ready to go into the water carriers which stow in here. Cutlery and cosmetics drawers. Fitted crockery and cocktail cabinet. Point for gas fire.
- A spacious open layout with plenty of floor space: enough even for an occasional bed on the floor if wanted.
- Two doors.
- Two luxury sized single beds, both 2' 2" wide, and 6' 3" and 5' 11" in length respectively. Both using 5" mattresses on perforated bases with padded sloping back rests. The near-side single bed is long enough to put your feet up for an afternoon nap without extension. When extended for full length you still have the off-side door available for use.
- Morlite roof opening section 4' x 2'.
- Choice of exterior and interior colours and finishes, upholstery, carpet, etc.
- Suspension — as Springbok but with lighter springs and 5.90 x 13 tyres.
